Message from the Mayor

Well, we're into autumn officially and the new Fiscal Year.

We're finally getting some precipitation. The crew is gearing up for the cooler turning into colder weather. It's a nice break from the drought conditions we've been going through so far this year.

Not much to talk about, other than the senior project is finally moving. I mentioned last month that I hope they get to use it for Thanksgiving activities, but the way it's going looks like we better hope for Christmas. But the contract and ER clearance have been sent out from Commerce for me to sign so that means it should start actually rolling here directly!

Maybe we *can* make Thanksgiving? It would be nice!

We're on the hunt for funding to address improvements, however small, for our sewer system, and will be applying to any and all available sources over the coming months. The tribe offered to pave A Street from Highway 95 to 8th street, and we have accepted that offer. Every little bit helps and cooperation and collaboration in things like this should be the norm in communities where state and tribal governance overlaps as they do within reservation boundaries.

That's about it for now.

Stay safe and stay healthy!

Mayor William Weems
